

Oak Systems Private Limited

#12, Jeevan Bima Nagar Main Road, HAL III Stage, Bengaluru – 560 075

Dear Candidate,

Oak Systems is a 12 years old specialist software testing / QA company based in Bengaluru & Pune. We have openings for freshers and the candidates must possess following skills-

- ONLY BE / MTech (E&C, CS and EEE) with 70% aggregate and above are eligible.
- Strong skills in C / C++
 - a) Should have thorough knowledge in all aspects like pointers, structures, unions, processors etc...in case of "C" language, Object oriented concepts in case of C++ and also in the implementation matters of each aspect. Should also be able to answer in "What happens when/If" mode.
 - b) Should clearly be able to write small programs (with minimum code to achieve the results) like calculating factorial of a number using recursion method, finding median of 3 numbers, finding whether a number is prime number or not, finding whether a word is a palindrome etc....
 - c) Should clearly tell the interpretation of each statement in the program in terms of why a particular construct is used, how it is used etc....
 - d) Should clearly know the difference between C/C++ and also know what are the considerations that are kept in mind when a choice is to be made between C and C++
- Strong in important subjects in the branch studied. Should be able to select Favourite subject and answer questions in the same.
- Should be able to explain in depth everything mentioned in the CV (including Academic projects)
- Must be confident to become productive as the selected engineer will be deployed into the project almost immediately.
- Stipend/salary will start from 8K and will be increased after 6 months. For MTech's, one increment will be considered
- Selected candidates must sign service agreement for a period of 1.5 years
- We have 15 open positions to be filled before 2nd August

About Oak Systems:

We offer complete lifecycle support services in software Testing, Verification and Validation for Avionics, embedded, telecom, BFSI, Enterprise Systems and other industry verticals.

We are a specialist Software Testing Company based in Bangalore since 1998 with a branch in Pune and operations all over the country. We are ISO 9001-2008 certified and our processes and systems have also been approved by CEMILAC for carrying out software V&V activities. Our customers include such majors as IBM, HP, GE, Oracle Financials (iFlex), Symantec, MPhasis, Dell, Infosys, DRDO, Yodlee etc.

Note: 1. Interested candidates need to call on 4126 7681 for the pre-scheduled walk-In.

2. Candidates attended walk-In in the last 45 days need not to apply.

Sd/-,
